

# BLOCKUNITY

Your source for simplified insights and analytics.

## PROBLEM

The universe of cryptocurrencies is currently an ecosystem composed of many major segments, a lot of data and mechanisms have to be taken into account to be able to correctly and serenely invest.

Solutions aiming to fulfil this type of needs are not rare, but often very limited in terms of functionality or focused on a particular segment only.

## SOLUTION

Blockunity processes the entirety of data necessary for the development of the activity of every crypto investor profile.

Whether it be pre-trade analysis, during the trade, or by tracking and managing your investments post-trade, Blockunity is here to meet your expectations and make your daily-crypto life more enjoyable.

Blockunity brings clarity to crypto data. The platform contains a large amount of data coming from multiple sources, trading algorithms, and advanced portfolio management as well as investment optimisation tools.

### Data Analysis
